

Adolf Hitler's Presence Online

December 2015

Social Media Platforms, Websites, Blogs, Online Merchandise

Introduction

- The aim of this presentation is to examine Hitler's presence online.
- This presentation does not pretend to be exhaustive, but rather seeks to sensitize about a little-known issue through a quick overview of its different forms.

Outline of the presentation

.1 Websites

.1.1 Ideology

**.1.2 Merchandising
and “Relics”**

.2 Social Networks

.2.1 Facebook

.2.2 Twitter

**.2.3 YouTube &
Instagram**

1.1. Ideology

- Glorifying Hitler is a widespread trend on the Internet. Content promoting Hitler's ideology can be found on national-socialist, neo-Nazi, white supremacist and certain conspirationnist websites.
- Such websites do not only glorify Hitler through History, but draw a complete outline of Hitler's ideology, interpreting Hitler's thought and presenting him as a visionary.
- Their role is thus not only to celebrate Hitler, but also to “educate” their visitors and to provide them with alternative ideological tools to understand and interpret the present.

Welcome to the Mein Kampf project at Christogenea.org

Nearly all of our content has been moved to this new website. If you cannot find what you need, see <http://oldmk.christogenea.org> for the old website.

Here we shall endeavor to accomplish three goals. First, we shall present the entire James Murphy translation of Mein Kampf, remaining faithful to the page numbering and type styles of that volume even if aesthetics suffers a bit for it. Then we will also present papers, as an ongoing project, demonstrating that Adolf Hitler was a good Christian man who cared deeply about his race, and followed the examples of Christ rather than just the lip-service found in modern churches, for better or for worse. Lastly, we will publish whatever other worthy papers we can possibly obtain in order to set the record straight in reference to certain historical events, and others which are supposedly historical. It may take some time to attain these goals for this project, however God willing, we will indeed attain them.

It is not the holocaust deniers who are a danger to truth and freedom in this world. It is the Christ deniers who are a danger to truth and freedom!

Here you have another fantastic video by the man who made "Adolf Hitler, the Man Who Fought the Bank," wherein the final speech of Hitler is shown to embody our present struggle, perhaps even more than when he gave it.

Our inspiration.

It was on this day in 1945, 70 years ago, that the last great European leader and pioneer of Truth, Adolf Hitler, committed suicide in his bunker as Soviet hordes closed in on Berlin.

Hitler had high hopes for his people, his nation, after the Second World War; but millions of them ended up being murdered, raped, or exiled, never to return to the Fatherland. A fully National Socialist State would have been actualized, where his people would flourish to heights never before seen in world history; but Germany ended up being enslaved to the will of the Allied powers, who attempted to prevent the

10 REASONS WHY HITLER WAS ONE OF THE GOOD GUYS

*We chose this blog by **DIGGER** because it outlays 10 Reasons why Hitler was one of the Good Guys, and since Digger here has already nailed it, we feel there isn't much really more to be said other than reading this post and considering a few things that may at first be totally absurd and mind-boggling.*

Select Language ▼

Initially I had intended creating a piece titled "10 Myths about Hitler" but decided that there were so many, that I switched topic slightly.

I understand like most of my work, these areas outlined only give a flavor and are not conclusively resourced. But that's OK. It's a carrot and hopefully just enough for people (even skeptics) to do their own research on these controversial areas. When people find things out for themselves, this has much more substance. All these areas are verifiable. They just take a bit objective, independent research. There are links at the bottom of the page to help one's research.

Hitler Was Right

That's right. This most extraordinary figure of modern time was indeed right!

He was right when he raised the banner of Aryan truth against alien corruption and lies.

He was right when he proclaimed anew the eternal laws of life to a world which had forgotten.

He was right when he opposed the crass materialism of both communism and finance capitalism.

He was right when he gave a hungry, humiliated people work and bread and raised it up.

He was right when he showed mankind a better way.

He was right when he gave the world a vision of a nobler future.

He was right when he sought peace among the peoples of Europe and the world.

He was right when he fought against overwhelming odds for that which is right and true.

He was right when he gave His life for a better world to come.

Yes, indeed. Hitler was right! And not only was he right, but he *is* right. His message of racial idealism is every bit as relevant and vital today as when it was first announced.

If you feel the same way, we invite you to join his timeless Cause.

Reading suggestions on the same website

To help gain a better understanding of the modern Hitler movement, we commend to your attention the following background and collateral material:

***Mein Kampf* by Adolf Hitler**

The Bible of National Socialism. Not only does this historic work contain the implicit, as well as explicit, truths of a New Order, but its underlying message establishes the foundations of a revolutionary, new faith for all Aryankind. 694 pages/hardcover & softcover (Houghton Mifflin edition)

The Words of Adolf Hitler

A handy compendium of the most memorable quotations from *Mein Kampf*, carefully organized by category for easy reference. Every National Socialist should carry a copy for daily inspiration and edification. 48 pages/softcover

***Faith of the Future* by Matt Koehl**

With its prophetic vision of Adolf Hitler as archetype of a new age, this powerful testament sets forth the ideological, spiritual and historical premises of the contemporary National Socialist movement and its revolutionary mission. Here is the key. 32 pages/softcover

***Advance to Barbarism* by F.J.P. Veale**

A provocative work, which traces the development of total warfare from primitive savagery to the American Civil War and World War II, the most destructive conflict in history, with its genocidal terror bombing of German civilians and the spectacle of show trials and barbaric treatment of a defeated enemy afterwards. Illustrated. 363 pages/softcover

***And Time Rolls On: The Savitri Devi Interviews* by R.G. Fowler**

Savitri Devi (1905-1982) became known as the high priestess of "esoteric Hitlerism" for her unique synthesis of National Socialism, Hindu mysticism and the Indo-European cyclical view of history in her 1958 book, *The*

Recognizing that there are both strong and weak races, the author examines the former, to analyze their qualities and trace them back to their origins. 214 pages/softcover

***The International Jew* by Henry Ford**

The great auto pioneer's critical study of Jewish influence on various aspects of American life—including finance, politics, music, motion pictures, entertainment and public morality. Essential. 231 pages/softcover

***Jewish History, Jewish Religion* by Israel Shahak**

Rarely does a Jew speak with such candor as does the author of this amazing volume. Drawing on a masterful study of the Talmud, Shahak traces the 3,000-year-old record of Jewish hostility and hatred toward non-Jews. This devastating study is *must* reading for anyone interested in understanding a most troublesome question. 130 pages/softcover

***Judaism in Music* by Richard Wagner**

Famous critique of Jewish artistic deficiency by the Master of Bayreuth. For those who appreciate true Aryan culture and the music of the *Führer's* favorite composer. Unabridged. 44 pages/softcover

***The Myth of the Twentieth Century* by Alfred Rosenberg**

As the leading ideologue of the NSDAP, Alfred Rosenberg was an uncompromising foe of every tendency—whether racial, religious, political or philosophical—which he judged to be alien or opposed to the Nordic-Germanic soul. It was ideas like these which led to his death by slow hanging at Nuremberg in 1946. 470 pages/hardcover

1.2. Merchandising and “Relics”

- Not to be confounded with websites dedicated to collectors of WWII weapons or uniforms, or of “German militaria”.
- Some websites, often related to far-right or neo-fascist movements, propose Hitler’s “souvenirs”.
- A legal dead-end: *LICRA v. Yahoo!*, 2000.

An American website

History is history and facts are just that facts.

PzG sells reproduction WW2 war stock at competitive prices for all students of Adolf Hitler, Nazi Germany, and Third Reich history in one convenient location.

Nazi war relics and Hitler WW2 souvenirs.

Attics, basements, and garages have served as resting places for the nazi war souvenirs, nazi war booty, nazi war trophies, military artifacts and collectibles that soldiers "captured and liberated" during the war with Hitler.

Each item had a story, like the GI who picked up a pistol from a German Waffen SS officer, took a nazi flag from a town square, or picked Mein Kampf off a library shelf at Hitler's Berghof and even after all these years these nazi relics still capture our imagination and hold places of honor in Third Reich collections across the world.

As time passes so does the growing rarity of these artifacts and the resulting higher prices make them impossible for many to have in personal collection where they can be held and studied at leisure but PzG has changed all of that by making historically accurate reproductions available to buy at reasonable prices for collectors, re-enactors, teachers, military enthusiasts, and all students of WWII history.

Collect your own piece of Adolf Hitler's nazi "war booty" today!

2.1. Facebook

- As the largest social network, Facebook counts many pages and profiles that are racist or promote racial hatred.
- Facebook offers its community of users the possibility to report such pages and profiles so the network deletes them. Facebook does not delete everything though, and you can still find much pages or profiles glorifying Hitler online.
- Eventually, when a page or profile has been removed, its owner often re-creates it. Combating such pages or profiles is a game of cat and mouse.

- The policy of YouTube is quite strict and content can be reported by its users and then be removed by the platform.
- We still find an important number of videos and photos glorifying Hitler though.
- YouTube has already been condemned in December 2008 for showing video clips glorifying Nazi troops and Hitler.

Conclusion

- 70 years after his death, Hitler is still alive online.
- Thanks to his admirers, Hitler and his ideology are omnipresent on the Internet. This is very worrying knowing the impact of the Internet, particularly on young generations.
- Much more has to be done on the subject. The different actors must engage a true reflection in order to create effective tools and policy to fight against online hatred and incitement, while preserving freedom of speech.
